"File under: 'Things we can't believe someone didn't do before'" – Comics Alliance

THINK OF THE CHILDREN is a satirical horror comic about the events leading to the original Comics Code Authority. The members of the Senate Subcommittee are secret monster hunters, seeking to destroy evil children, who they believe are corrupted by the stories of EC Comics. The story is available free online at comicsmakekidsevil.com.

THINK OF THE CHILDREN is designed for print publication, with plans for a hand-made, hardbound, sculpted artifact book in mind. A **KICKSTARTER** campaign is raising donations until June 6 to help fund the print project. Funding will pay for the print production of THINK OF THE CHILDREN, including:

- Hardbound davey board covers set on cloth bound hinges.
- A sculpted resin seal embedded in the front cover.
- Interior printing on Dur-O Tone, 70# Newsprint.
- Laser etched line art on the back cover.
- A color overlay in the middle of the book.
- An inside front cover book plate.
- An inside back cover library card and envelope, listing donors .

We're offering some fun rewards: copies of the book, ACEO cards, sculpted netsukes and more!
